Allowable Subject Matter

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art fails to show a system that substantially eliminates glitch comprising the first and the second drivers coupled between first and a second nodes, wherein a difference in power signal values received at respective ones of the first and second nodes is set to a predetermined amount, such that a glitch in the first and second analog signals is substantially eliminated as called for in claim 1; and wherein the limit in the swing value in the driver signals substantially eliminates glitches in first and second analog signals as called for in claim 8. Therefore, claims 1-12 are allowed.
